1. We wish to enlist your cooperation in obtaining full operational clearance for such agents as KIBIPZ 177 and 180; in other words, when there is need for haste.

2. The procedure for obtaining final operational clearance involves a minimum of a month under the best possible conditions; i.e., when headquarters traces are negative and when all field traces are forwarded with the PRQ's of the particular agent. When the PRQ's leave our hands for the appropriate staff, there is little we can do to expedite matters except for the usual procedure of needing the staff. The feasibility of so-called priority clearances requested by cable following shortly on the arrival of the PRQ's is to be questioned.

3. In view of the slowness of the headquarters staff, which is greatly overloaded with requests for clearances, it would help greatly if you could possibly send us the necessary PRQ's sometime prior to the date when you want the particular agent to have intermediate and advanced W/T training. We note your own lack of administrative help, but your cooperation in this respect will nevertheless be appreciated.
